#### Note 1:

A Distribution Index of 100 indicates that the centre of the distribution of the Workforce Diversity group across salary levels is equivalent to that of other staff. Values less than 100 mean that the Workforce Diversity Group tends to be more concentrated at lower salary levels than is the case for other staff. The more pronounced this tendency is, the lower the index will be. In some cases the index may be more than 100, indicating that the Workforce Diversity Group is less concentrated at lower salary levels.

#### Note 2:

The Distribution Index is not calculated where Workforce Diversity Group or Non-Workforce Diversity Group numbers are less than 20.
