G Qualifications to governance attestation statement

Item: SETTING THE STRATEGIC DIRECTION FOR THE ORGANISATION AND ITS SERVICES - Workforce development planning and documentation

Qualification

No Strategic Direction for Information & Communication Technology (ICT) shared services between NBMLHD and Western Sydney.

Progress

An external review was undertaken and report issued in November 2012 by Grant Thornton. They found that “splitting” or “demerging” the ITS function is unlikely to deliver significant improvements in the short term. They identified 5 areas where improvement in service levels and quality could be more effectively achieved by addressing the following:

1. Strategy & Leadership
2. Governance and Accountability
3. Engagement and Consultation
4. Service Delivery
5. Program Change Management.

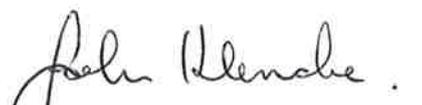

Since the review numerous meetings have taken place between HealthShare, WSLHD and NBMLHD. Deloitte were engaged to determine what could be achieved in the short term. This resulted in proposed changes to the Statewide Service Desk component of the service but there is still no strategic direction for the ICT service.

Remedial Action

NBMLHD will continue to work closely with WSLHD to have a strategic direction issued by early 2015.
